CORPORATE PROFILE

ABOUT BENZEL AND PARTNERS INVESTMENT HOLDINGS (BPIH)

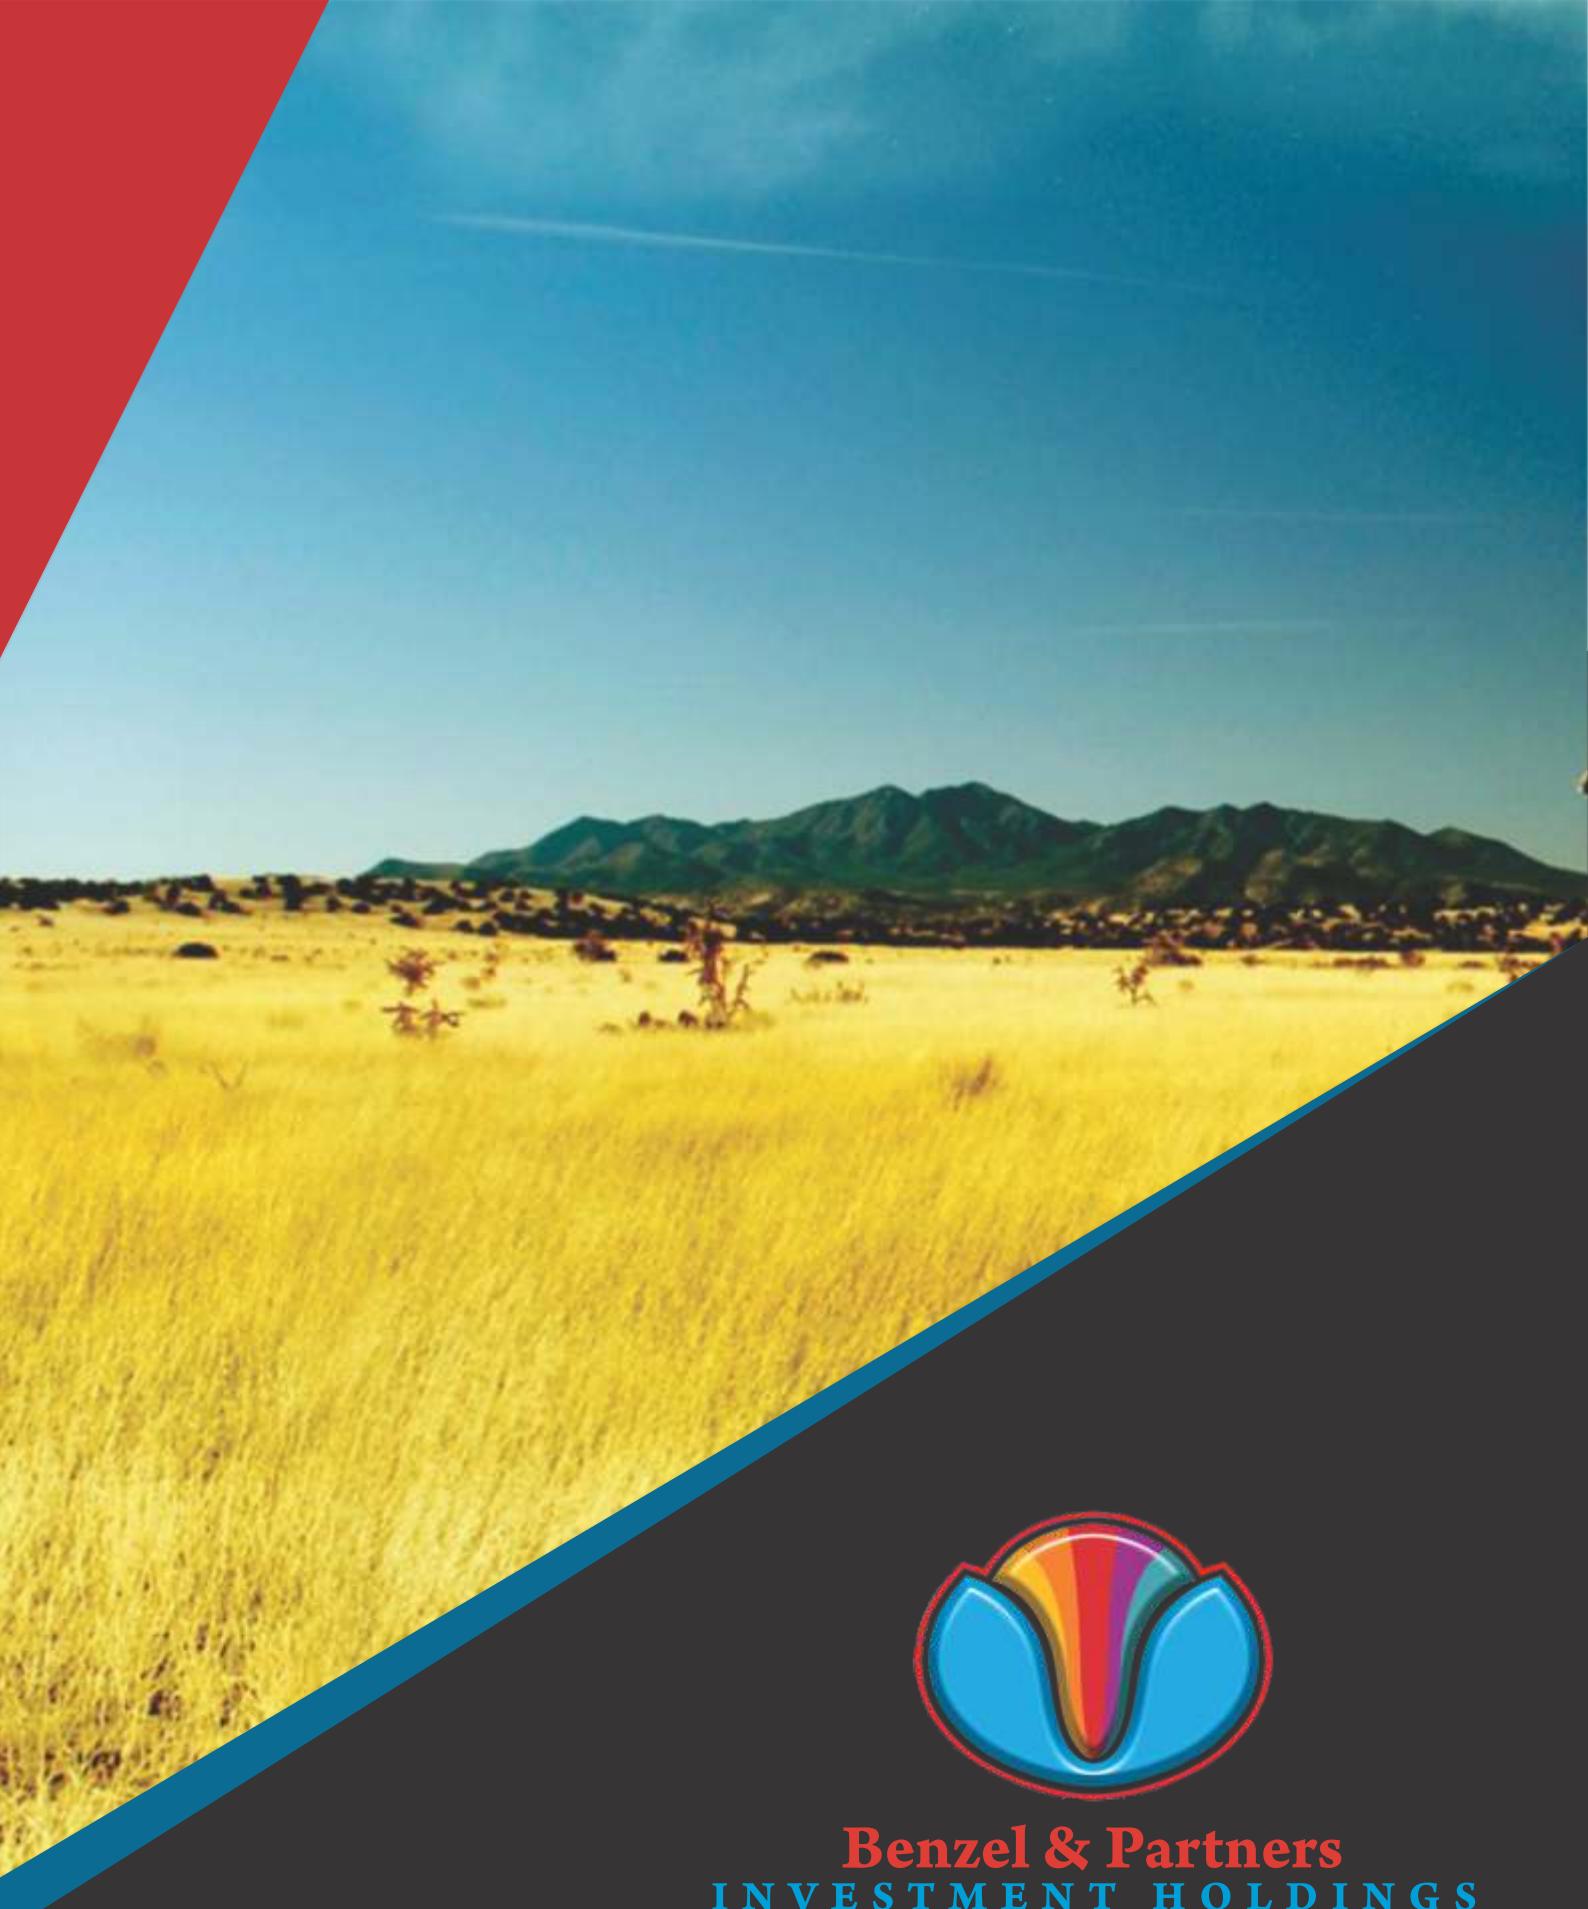

Benzel and Partners Investment Holdings (BPIH), a Namibian privately owned company with a hundred percent Namibian ownership was established in 2008 as a close cooperation with a registration number CC2008/3029. Due to the growth and demands of the business, it was changed to a proprietary company (Pty) Ltd in 2011 with a registration number 2011/0270. In 2012 it was eventually converted into a holding company with a proven track record in the fields of Technology, Construction, Consultants, Manufacturing, Import and Export, General supplying of various products from domestic, industrial to commercial, with all these different portfolios falling under its subsidiaries, namely Benzel and Partners Investments(Pty)Ltd, B.P.I Supplies Cc, B.P.I Technologies Cc, B.P.I Construction Cc, B.P.I Consultants Cc and B.P.I Energy Solutions (Pty) Ltd.

Operating in different socio economic and political environment with an exceptionally demanding market where an attitude of innovation, integrity and diligence is permanently required, BPIH has been successful in launching state of the art products, services and solutions meeting its customer's stringent requirements.

This therefore calls for significant investments in research and development, ensuring that emerging technologies and techniques are consistently incorporated in new products and service delivery.

Striving to achieve excellence in its domain of activities, BPIH has supplied products and services over the years in its domestic market. BPIH has a competitive and innovative character as well as the flexibility to supply products and services tailored to meet our customers' specific requirements. We are a company committed to provide full customer satisfaction. Being proud of having developed long lasting relationship with our international partners and clients, we are a company geared to face the challenges of the future with optimism and confidence, where we are prepared to go an extra mile.

A lot of companies have ignored business ethics and good corporate governance in their bid to make quick profits, yet at BPIH we thrive to give a service beyond our client's expectation. Our belief is based on the fact that a satisfied customer is the basis of our growth.

BENZEL AND PARTNERS INVESTMENTS(PTY)LTD

Benzel and Partners Investments (Pty) Ltd, a subsidiary of BPIH with registration number 2011/0270, has a long history of buying, supply and delivery of various products from domestic, industrial to commercial products. It is also involved in construction, information technology, manufacturing, import and export of various goods with different size and magnitude, supply of food items, general consultants, printing and other related services.

For its successful undertaking of the projects we consistently use business acumen, experience and knowledge to help our clients build their business.

Benzel and partners is among the wholly owned Namibian companies adhering to good corporate ethics. It is in good standing with social security commission and the receiver of revenue. It is also registered with equity commission, SME and Namibian preferential procurement corporation.

We are also a representative and a local partner of various international companies including Marce Firefighting Technology and Chadda Power. This association has seen us deliver and supply Firefighting trucks to the Ministry of regional, local housing and rural development, Namibian Airports Company and City of Windhoek fire department. Under this association with international companies we have also brought in IMISON WALLING TECHNOLOGY in the construction industry, which is a first of its kind in Namibia. Benzel and Partners Investments (Pty) Ltd through BPI Energy Solutions (Pty) Ltd, where it has a 100% controlling stake, is owning 5MW through an SPV called Ejuva One Solar Energy (Pty) Ltd situated in Gobabis town, Omaheke Region. Benzel and Partners Investments (Pty) Ltd is also a developer and a shareholder in Ejuva One Solar Energy

(Pty) Ltd. This is one of the life time landmark milestone project which has been tirelessly achieved with an endless benefits to our country. We have been also involved in many projects from organizations and parastatals some of them being Telecom Namibia, Parliament of the republic of Namibia from both houses that is national assembly and national council, construction of Oshakati hospital nuclear medical building, supply and delivery of networking and installation of information communication technology to the university of Namibia.

Over the years Benzel and Partners Investments (Pty) Ltd has developed a lasting relationship with its partners and customers which continuously and further brings it to the lime light of Namibian market.

INVESTMENTS (PTY) LTD

BPI TECHNOLOGIES CC

A subsidiary of BPIH which was incorporated in 2012 with registration number CC/2012/4903 is renowned with its punctuality to deadlines and delivery periods. B.P.I Technologies has a vast and recognized experience in delivering and supplying of various information technology products, software development, information technology consultants, security management system, installation, networking and related services.

It is a company with highly qualified information technology professional specialist staff. Information communication technology plays a vital role in our day to day running of activities as the world is becoming a global village. To cope with such demands B.P.I Technologies is offering state of the art products and services specifically designed to automate and integrate all the ICT of a world standard.

We have undertaken big projects in the Ministry of Defense In supplying and installation of laptops and related products, and another milestone achieved for the Adult Education Information Management system (AEIMS) Project for the Ministry of Education. This project enabled the Directorate of Education to achieve its strategic goals.

B.P.I Technologies will go on providing information communication technology for excellent performance. In order to undertake the above with diligence we have become EID local representative, a company from Portugal which specializes and majoring in field communications, tactical network solutions, naval communications, digital intercoms, military messaging and systems integration.

Teaming with our partners B.P.I Technologies offers turnkey solutions, tailored to specific customer requirements and including not only the communications and information technology components of such solutions but also civil works and other specifically required components.

BPI Technologies is also involved in three major projects at MTC. These are, Consultancy and integration services for the enterprise data warehousing (EDW), Supply, Delivery and Installation of the Revenue Assurance and Fraud Detection and Management System and Provision of a SS7 Signalling, Diameter and SMS Firewall.

In addition to this, BPI Technologies prides itself as having some of the most skilled engineers in the field of Network Design, Implementation, Operations and Maintenance as well as Data Center, Disaster Recovery Site design and Implementation. Furthermore, BPI Technologies has Microsoft certified specialists that handle Microsoft Exchange and Microsoft Active Directory and other LDAP implementations and maintenance.

Being driven by an attitude of continuously innovating, BPI Technologies has successfully ventured into vehicle tracking, fuel, oil and fleet management. To date we have managed a fleet of 750 vehicles with vehicle tracking and fuel management devices for City of Windhoek. Fleet management refers to all actions that need to take place to keep a fleet running efficiently, on time, and within budget. It is used by fleet managers to monitor fleet activities and make decisions about proper asset management, dispatch and routing, and vehicle acquisition and disposal. Fleet management helps to ensure that a fleet is meeting compliance requirements, continuously improving efficiencies and reducing costs. GPS tracking involves a network of satellites that triangulate a trackable device's location, movement, and speed. These trackable devices are installed in vehicles or can be held in your hand like a cell phone.

BPI
TECHNOLOGIES

BPI SUPPLIES AUTO TRADER CC

A subsidiary of BPIH, it was incorporated in 2012 with registration number CC/2012/5012. BPI SUPPLIES AUTO TRADER cc has unique expertise in delivery and supply of various products. Our expertise ranges from import and export of motor vehicles and car parts. Selling motor vehicles and car accessories, trading supply and delivery of various products, food items, and other related services.

BPI SUPPLIES AUTO TRADER cc understands that material supplies are a catalyst for economic growth. Material supplies ensures that our primary industries are functional and operate smoothly, thus ensures optimal production.

We at BPI SUPPLIES AUTO TRADER cc have taken up the challenge and have made a strategic decision to operate in both the upstream and down stream in the of exploring all the avenues in the economy. We consistently seek to engage and partner up the capable local, regional and international partners in order to cater for the ever increasing demand for materials and various products in our economy.

Having been recognized by many organizations as the best preferred supplier. We do not hesitate to mention these organizations such as the Ministry of Education and Kunene Regional Council where we have supplied promotional and corporate wear. We have also supplied fencing materials to the Ministry of Agriculture, Water and Forestry.

We are in good standing with the Social Security Commission and the Ministry of Finance with all the certificates from SME, Employment Equity and Namibian Preferential Procurement Corporation.

The know-how in the field of supply and delivering of various products enables BPI SUPPLIES AUTO TRADER cc to offer products fully compliant with the customer's specifications.

BPI
SUPPLIES AUTO TRADER

BPI GENERAL TRADING CC

BPI GENERAL TRADING cc was founded in 2012 with registration number CC/2012/4902. It is also another arm of BPIH which specializes providing professional advice to client companies.

It is manned by a highly qualified consulting team in various fields including finance, accounting, information technology, human resources, corporate advisory services and other related services.

The subsidiary came into being after evaluating the need for the provision of offering training to the end user after delivery and supply of our products hence reduction in maintenance cost because of lack of technical know-how to the end user.

We are not limited only to providing service to where we would have supplied our products, but open to the whole economy including all government ministries.

We have provided consultants service to UIS Village Council for the compilation of financial statements. We are looking for a bright future in the consultant's services as we have a qualified and an experienced team in this field.

We also supply and deliver medical consumables, medical equipment, medicines, surgical instruments, hospital linen, pharmaceuticals and other related services.

The company complies with all statutory regulations both from the Social Security Commission and the Receiver of Revenue, with SME certificates and employment equity.
